

***The President's Thoughts***  
*By Mickey Breunig, President*

If the rain ever stops, we will have some nice weather to fly. The best flying weather is almost here. I hope everyone's ready for it.

At the club meeting this month we will be setting a couple of workdays, one for the shelter and one for the runway. We have a plan for the repairs of each, but we need to set a date for the workdays and get several volunteers. Even if you can't make it to the club meeting and can volunteer to help, we need people for either one, be sure to get hold of someone.

The meeting is scheduled for Saturday at 11 am at the field. We will have some lunch following the meeting.

I hope to see you there.

### 2024 Lock Change

On April 1, 2024, a new lock will be added to the gate. The old lock will remain until May1, 2024. Both locks will open the gate until May 1, 2024. On May 1, 2024, the 2023 lock will be removed. The new lock code will be published in your 2024 Welcome Letter with your 2024 sticker.

***Meeting Minutes from April 13, 2024***  
***By George Kissick***

**Call to Order**

Lexington Model Airplane Club called to order by Mickey at 11:16 a.m. 4/13/2024.

- A. Minutes accepted for approval
  - A. Dave made the motion
  - B. Martin Seconded
  - C. Motion carried by membership.
- B. Treasury Report
  - A. Dave made the motion to approve
  - B. Seconded by Martin
  - C. Motion carried by the membership
- C. Training
  - A. No Report
- D. Safety Report
  - A. No Issues
- E. Old Business
  - A. Discussion on cracks on the runway
    - 1. Discussion on repairing the cracks with Portland cement and sand mixture
  - B. Shelter
    - 1. There is water damage
    - 2. Curtis and Terry volunteered to investigate the details
    - 3. Possibility of getting bids for the repair
  - C. Picnic is scheduled for July 27
- A. New Business
  - A. Gale volunteered to provide weed control around the driveway, etc.
  - B. Lester Ware suggested rolling the grass around the field to smooth out the rough spots
    - 1. A motion was made to allot 300.00 for the rental of roller
    - 2. George made the motion
    - 3. Sylvester seconded
    - 4. Membership approved
  - C. Ed Reed was given the club the permission to sell/auction the planes in his collection
  - D. There was discussion to fill in around the porta potty where the truck from Bypass Rental is making ruts in the ground around the porta potty
    - 1. 250.00 was allotted for the gravel
    - 2. A motion was made by Mickey to approve the money
    - 3. George seconded
    - 4. Membership approved
- A. The meeting was adjourned at 11:47 a.m.
  - A. Motion made by Mickey
  - B. Seconded by Sylvester

Meeting adjourned

**Next LMAC Club Meeting:**  
***Saturday, May 18, at 11:00 AM***  
**Meeting Location:**  
***LMAC Flying Field***  
***4200 Hedger Lane***  
***Lexington, KY***

## *Congratulations to Chris Burell Solo News*

LMAC would like to congratulate Chris Burell on the completion of his training and successful solo flight.

Chris made his solo flight today on his E-flight Turbo Timber.

So, if you see Chris at the field be sure to Congratulate him on his Great News! Thanks to Jeff Cummings for all the hard work and time he puts into the training program. This is a very valuable program and helps folks get started in this great hobby that we all enjoy. Thanks Jeff

# Blast from the Past

By David J. Price

This series of articles will present advertisements from vintage modeling magazines. The intent is to illustrate technological advances that have taken place in our hobby. For some it will bring back memories, for newcomers it will present a piece of history of radio control model aviation.

Here is an advertisement from the June 1976 issue of Radio Control Modeler for the Heath Pack-17 plug-in modules. Remember the days of the radio with a single 72 MHz radio frequency and having to wait to fly because someone else was on your frequency? With the Heath Pack-17 plug-in modules you could switch to a different frequency just by changing the module. With frequency hopping spread spectrum 2.4GHz radios, the days of these modules are long gone (thank goodness – I hated having to wait for my frequency to be open). Yes, 72 MHz narrow band RC systems are still legal to use (as well as 27 MHz, 50 MHz, 53 MHz, and 75 MHz).

Check out: <https://www.modelaviation.com/is-72-mhz-dead>

**BE IN THE AIR WHILE OTHERS WAIT.**

With the Heathkit Pack-17™ R/C System's 17 plug-in modules, you'll probably never have to wait for a frequency again!

Spend more time aloft, less time waiting. With Pack-17, there are 17 quick-change modules available, so you can switch to a vacant frequency instantly. And because you build the system, you can service it yourself. Units are available with 5 or 8 channel, single or dual stick transmitters. Send for the new Heathkit catalog and see the complete Heath R/C line . . . it's the only way to fly.

# Joe Nall 2024 Fly In by John Royalty

I am sure all of you have heard of Joe Nall Triple Tree Aerodrome. The 42<sup>nd</sup> Anniversary of the event was May 10 -17, so it will have just ended by the time you read this article. This has always been on my bucket list of things to do in the RC Hobby. I only went as a spectator this year and didn't fly. I wanted to just take it all in without the stress of trying to fly. The facility is over 400 acres with 100 motor home campsites and a 7000-foot grass runway for full scale aircraft. I went with Mickey B, Jessie Harris, Martin Weinstock. Carroll Ware and his family went Justin (son), Jennifer (wife) and also Lester Ware. The event goes on for little more than a week, we went down on the first Saturday and stayed till Tuesday which is the day we drove home. The trip is a little over 6 hours, depending on the stops you make along the way. When you arrive, you will immediately see how massive this facility is because you check in on the highest point of the property. This year we were told there was over 700 registered pilots. The quality of some of the aircraft is outstanding and is some of the best you will see anywhere. The flying activity hardly ever stops all day, and then when the sun goes down the night flying begins. It is really kinda amazing what can be done with a little light added to an airplane. If your curious about this event you can go down a YouTube rabbit hole and check out what you might see if you were to go one day. As always you should put this on your list of things to go to and you won't be disappointed. Here are some pictures of things from our trip this year.

# Joe Nall 2024 Fly In Pics

*Joe Nall Pics*

*From the Desk of our Treasurer and Secretary.  
By George Kissick*

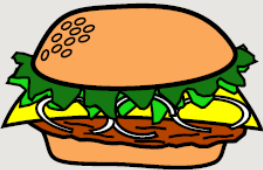

Note:

- If you need the instructions to install the four cameras at the field, e-mail me @ [Imactreasurer@gmail.com](mailto:Imactreasurer@gmail.com) and I will send you the instructions. **ONLY** four members can access the cameras at one time. When you are finished, please close the app so others can get access. The parking lot cameras are the only cameras that are working right now
